江苏科标医学检测有限公司  
检验报告

样品受理编号: SSMT-S-2023-0594

样品名称: 宠物免洗 SPA 手套  
检验项目: 急性经口毒性试验  
检验开始日期: 2023年08月01日  
检验完成日期: 2023年08月15日

一、器材  
1. 受试样品:  
将样品所含液体原形作为受试物。  
2. 动物:  
实验动物: SPF 级 ICR 小鼠  
数量: 20 只  
性别: 雌雄各半  
体重: 试验初体重 18-22 g  
来源: 杭州启真实验动物科技有限公司(生产),  
合格证号: NO.20230801Abbaab0100000110  
饲料: 小鼠颗粒饲料, 北京科澳协力饲料有限公司, 批号: 23023213  
饲养环境: 温度 20-26°C, 湿度 40%-70%

3. 仪器设备:  
电子天平 (SSMT-493)  
电子天平 (SSMT-532)  
洁净工作台 (SSMT-501)

二、方法  
1. 依据依据:  
《消毒技术规范》(2002年版) 2.3.1  
2. 试验方法:  
试验前实验动物禁食过夜, 不限制饮水。用灌胃方式将受试物一次给予实验动物, 剂量 5000 mg/kg 体重, 观察 14 天内动物的中毒表现、死亡情况。对观察期满处死的动物进行尸体剖检, 肉眼观察有无异常组织或脏器。

三、试验结果  
14 天观察期内, 小鼠无中毒表现和死亡, 尸检未发现异常。  
急性经口毒性试验结果

性别	剂量分组 (mg/kg)	动物数 (只)	中毒表现	死亡动物数 (只)	死亡率 (%)	尸检异常
♂	5000	10	无	0	0	无
♀	5000	10	无	0	0	无

四、结论  
受试物对试验动物(小鼠)急性经口毒性 LD50>5000 mg/kg 体重, 属实际无毒, 符合《消毒技术规范》(2002年版) 2.3.1 的要求。

广东省微生物分析检测中心

GUANGDONG DETECTION CENTER OF MICROBIOLOGY  
分析检测结果

20181900683

报告编号 (Report No.): 2022FM23156R01

1. 中和剂: 含 3%吐温-80、0.5%硫代硫酸钠、0.5%L-胱氨酸、0.5%蛋白胨、0.85%氯化钠、1.43%亚磷酸、0.1%半胱氨酸的 PBS 溶液。  
2. 培养基: 营养琼脂培养基、沙氏琼脂培养基。  
3. 使用仪器: 生化培养箱 (编号: QFM-B-P016、QFM-B-P017)、生物安全柜 (编号: QFM-B-P005)、低温恒湿槽 (编号: QFM-B-P014)。  
4. 测试结果:

作用浓度及时间	试验菌种	序号	对照菌存活菌 (cfu/mL)	试验菌存活菌 (cfu/mL)	平均杀菌率 (%)		
					结果计算	结果报告	
原液 20min	大肠埃希氏菌 ( <i>Escherichia coli</i> ) ATCC 25922	1	3.4×10 <sup>8</sup>	<10	>99.97	>999	
		2	4.5×10 <sup>8</sup>	<10			
		3	3.1×10 <sup>8</sup>	<10			
	平均值			3.7×10 <sup>8</sup>	<10		
	金黄色葡萄球菌 ( <i>Staphylococcus aureus</i> ) ATCC 6538	1	3.4×10 <sup>8</sup>	<10	>99.97	>99	
		2	3.8×10 <sup>8</sup>	<10			
3		4.3×10 <sup>8</sup>	<10				
平均值			×10 <sup>8</sup>	<10			
白假丝酵母 (白色念珠菌) ( <i>Candida albicans</i> ) ATCC 10231	1	4.0×10 <sup>8</sup>	<10	>99.97	>99		
	2	3.2×10 <sup>8</sup>	<10				
	3	3.9×10 <sup>8</sup>	<10				
平均值			3.7×10 <sup>8</sup>	<10			

(以下空白)

备注: 效果评价标准: 当杀菌率 ≥90% 时, 样品对所测菌株有杀菌作用。

Test Report No: XMCPC25000341-02\_EN Date: Apr 24 2025

The test results are as follows:

Test Requested: Selected test(s) as requested by applicant: Antimicrobial activity test

Test Method: USP-NF <51> Antimicrobial Effectiveness Testing, official date Official as of 1-May-2018

	Log value of Inoculum	14 days Log value of reduction	28 days Log value of reduction
Aspergillus brasiliensis	5.3	>4.3	>4.3
Candida albicans	5.6	>4.6	>4.6
Escherichia coli	5.6	>4.6	>4.6
Pseudomonas aeruginosa	5.6	>4.6	>4.6
Staphylococcus aureus	5.3	>4.3	>4.3
Conclusion		Pass	

Notes:  
Bacteria: *Staphylococcus aureus* ATCC 6538, *Escherichia coli* ATCC 8739, *Pseudomonas aeruginosa* ATCC 9027;  
Yeast: *Candida albicans* ATCC 10231;  
Molds: *Aspergillus brasiliensis* ATCC 16404.  
With reference to USP-NF <51> Antimicrobial Effectiveness Testing, official date Official as of 1-May-2018:  
For Category 2 Products:  
Bacteria: Not less than 2.0 log reduction from the initial count at 14 days, and no increase\* from the 14 days count at 28 days.  
Yeast and Molds: No increase\* from the initial calculated count at 14 and 28 days

Page 2 of 3 RAND: 4162316

Test Report No: XMCPC25000982-01\_EN Date: Jul 21 2025

Acute oral toxicity test\*

Test methods: Technical Standard of Disinfection 2002

Test result:  
1. Materials and methods  
1.1 Test environment: Barrier system animal room. Use of License No. SYXK (Yue) 2023-0086. Room temperature 20°C-26°C, Relative humidity 50%-70%.  
1.2 Laboratory animals and feed: 20 Healthy SPF Kunming mice (10 females and 10 males) were selected, weighing 18.0 g-20.0 g. Animals and feed were supplied by Guangdong Medical Laboratory Animal Center. The Animal Production License No. SCXK (Yue) 2022-0002. The Animal certificate No. 44007200152435.  
1.3 Preparation of Sample: Took 25.00 g of sample and added ultra-pure water to 100 mL, the liquid was stirred uniformly as test solutions.  
1.4 Test procedure:  
1.4.1 Dose: A limit test. The test substance dose was 5000 mg/kg bw.  
1.4.2 Administration of Doses: The test solution was administered in a single dose by gavage using a gavage needle, 0.2 mL/10 g bw. Fasted for 4 h prior to dosing, water was available any time. After the test solution had been administered, fasted for 1 h, and ordinary diet.  
1.4.3 Observation: The test observation were lasted for 14 days. Recorded signs of toxicity and death of animals, individual weights of animals in weekly intervals. At the end of the test animals were weighed and then humanely killed, recorded necropsy findings.

2 TEST RESULT  
No obvious toxic signs and death were found during the observation period, and no obvious change were observed in gross necropsy. The LD50 of the test substance in mice was more than 5000 mg/kg bw.

The result of acute oral toxicity test for mice by the test substance

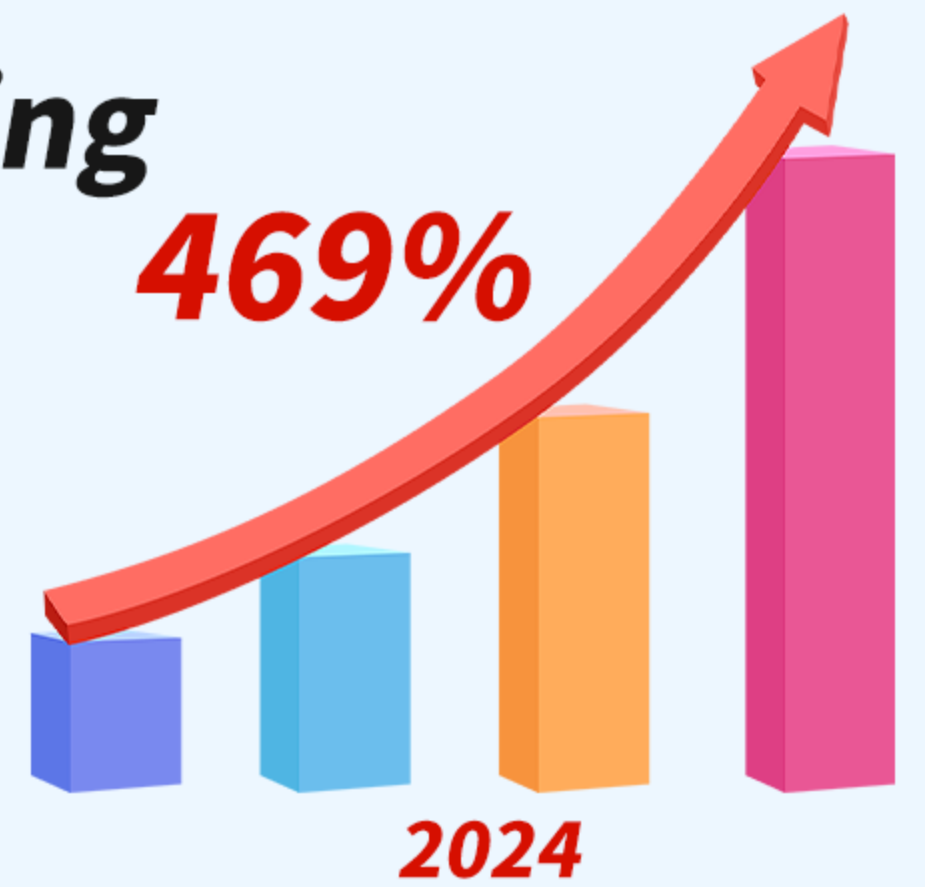

Sex	Dose (mg/kg-bw)	Test animals(n)	Body Weight ( $\bar{X} \pm s$ ) (g)				Death animals(n)	Mortality (%)
			0 d	7 d	14 d	14 days of weight gain		
female	5000	10	18.2±0.3	26.0±0.6	31.8±0.9	13.5±1.0	0	0
			18.3±0.3	31.6±0.7	37.9±1.0	19.6±0.8	0	0

Remark: \* Test was carried out by external laboratory assessed as competent.  
Sample Description: Sample in bottle  
The test report shall only be used for client scientific research, teaching, internal quality control, product research and development, etc.

# Deodorant Spray

Dog and cat sometimes have a distinct odor, it comes from a variety of sources, including sweat, bacteria, and environmental factors. The odor inside the home will be unpleasant to you and may cause respiratory irritation and infection.

Our deodorant spray contains mild, safe and non-irritating ingredients. Daily use our deodorant spray will keep your pet and you smelling great, improving your relationship with your furry friend.

## Usage Effect

Result may vary depending on individuals and usage habits.

# Dental Finger Wipes

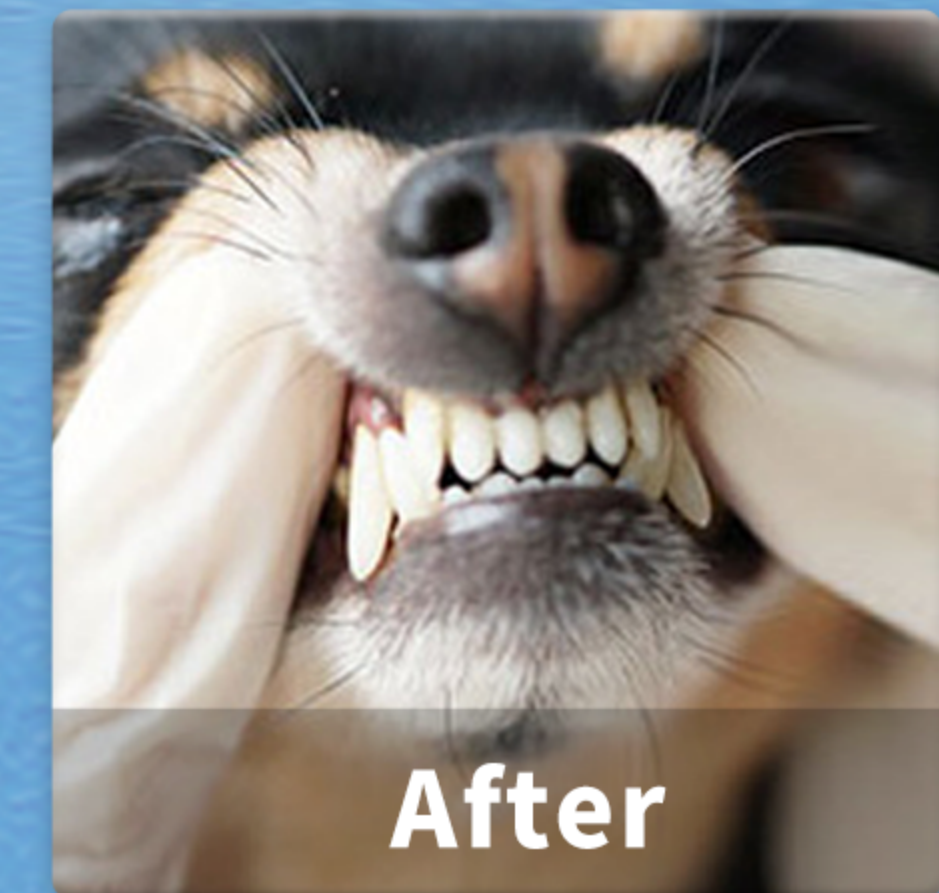

Bacteria and plaque-forming foods can cause build-up on your pet's teeth. This can harden into tartar, potentially causing gingivitis, receding gums and tooth loss. Regularly clean your pet's teeth with dental finger wipes can effectively wipe away plaque and tartar, keep teeth and gums clean and healthy.

Our dental finger wipes are specifically formulated for your furry friend, which contain mild, safe and non-irritating ingredients, suitable for pets of all ages. Don't use toothpaste made for human, which contains fluoride and may irritate your pet's stomach.

## Usage Effect

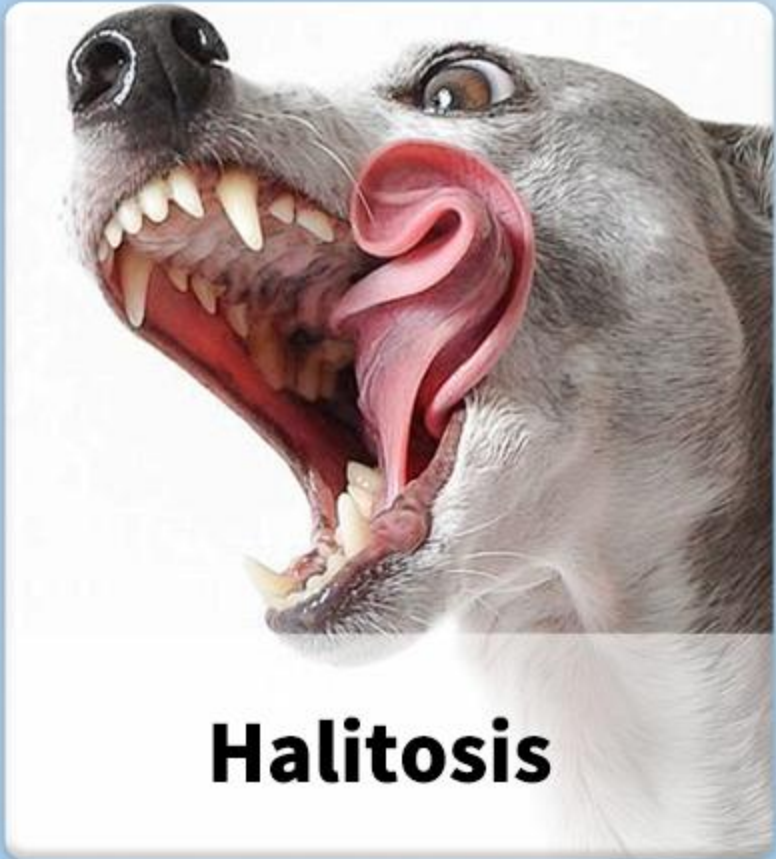

Result may vary depending on individuals and usage habits.

# Pet Dental Gel

**Resist Toothbrush**

Bacteria and plaque-forming foods can cause build-up on your pet's teeth. This can harden into tartar, potentially causing gingivitis, receding gums and tooth loss. Regularly clean your pet's gums and teeth will soften and remove plaque and tartar, keep gums and teeth clean and healthy.

**Halitosis**

Our pet dental gel contains organic and mild ingredients, the soft bristle brush can clean the gums and teeth gently and deeply, suitable for pets of all ages.

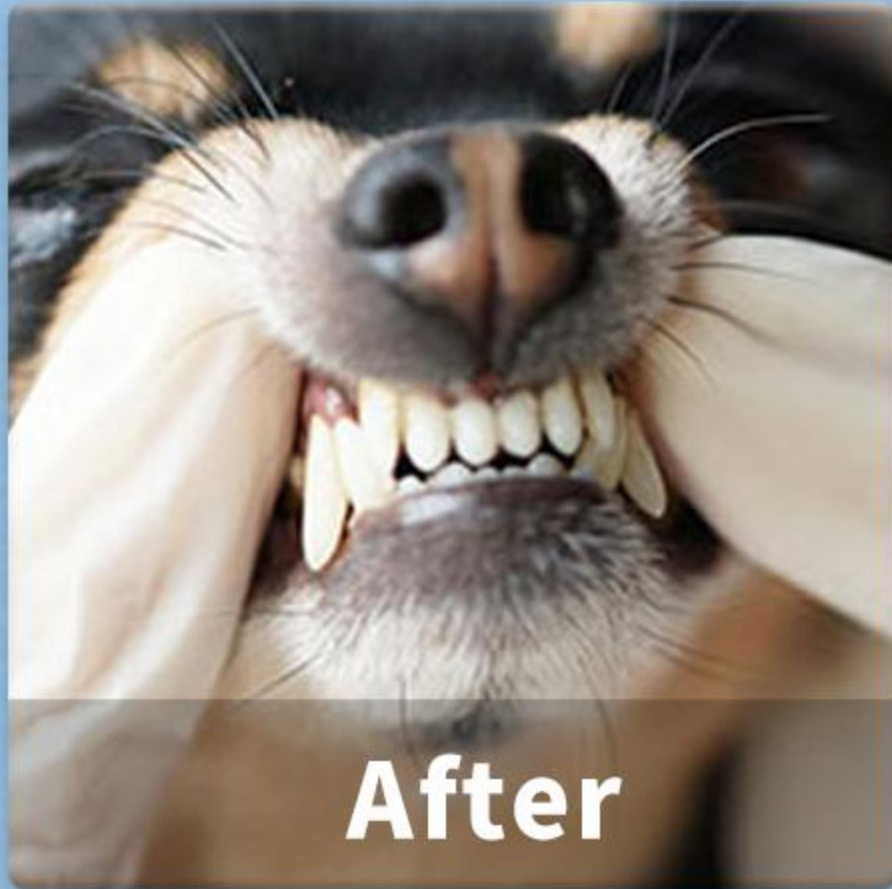

**Dental Plaque**

**Before**

## Usage Effect

**After**

Result may vary depending on individuals and usage habits.

# Eye Wipes

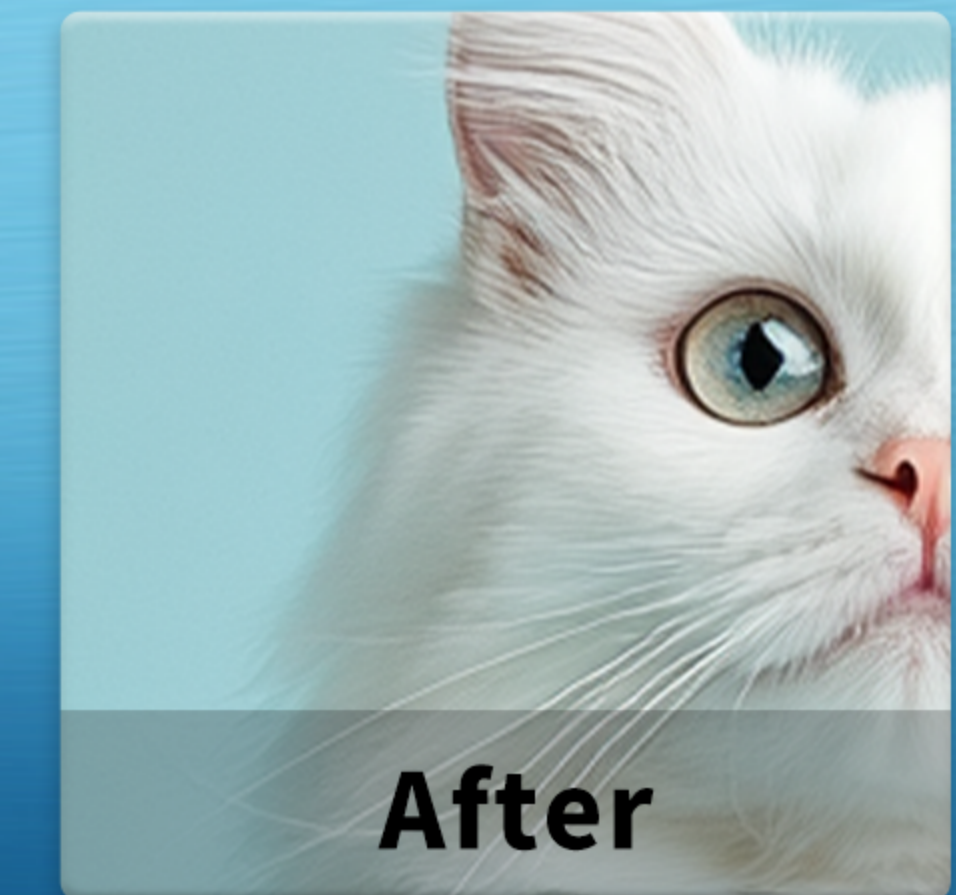

Dried mucus secretions, discharge, crust in the corner of your pet's eyes may cause eye inflammation, itching and irritation. Regularly wipe outwards from the inner corner of eyes with eye wipes, don't touch the eyeball to avoid scratching the cornea, which can effectively keep your pet's eyes gunk-free and healthy.

Our eye wipes are specifically formulated for your furry friend, which contain mild, safe and non-irritating ingredients, suitable for pets of all ages, even sensitive skin.

## Usage Effect

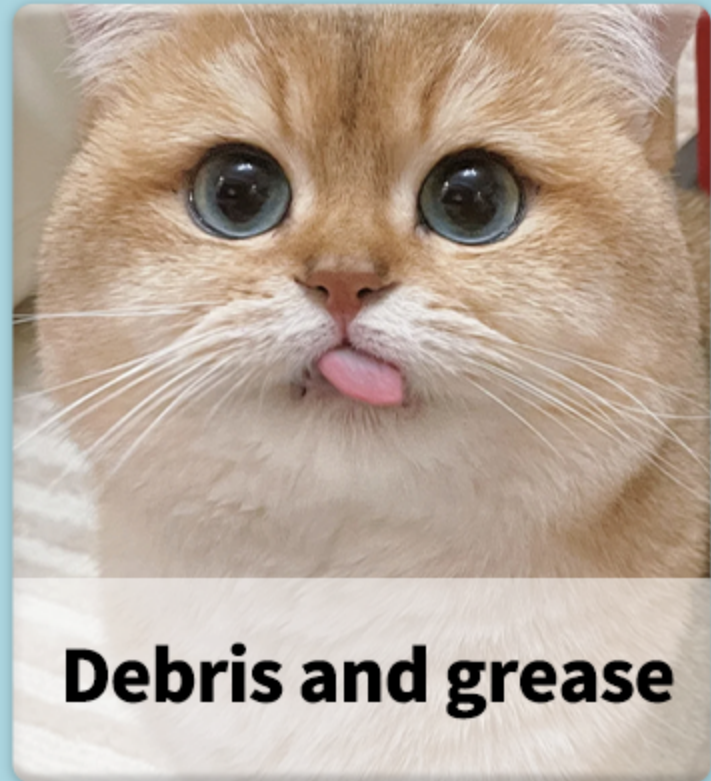

Result may vary depending on individuals and usage habits.

# Chin Finger Wipes

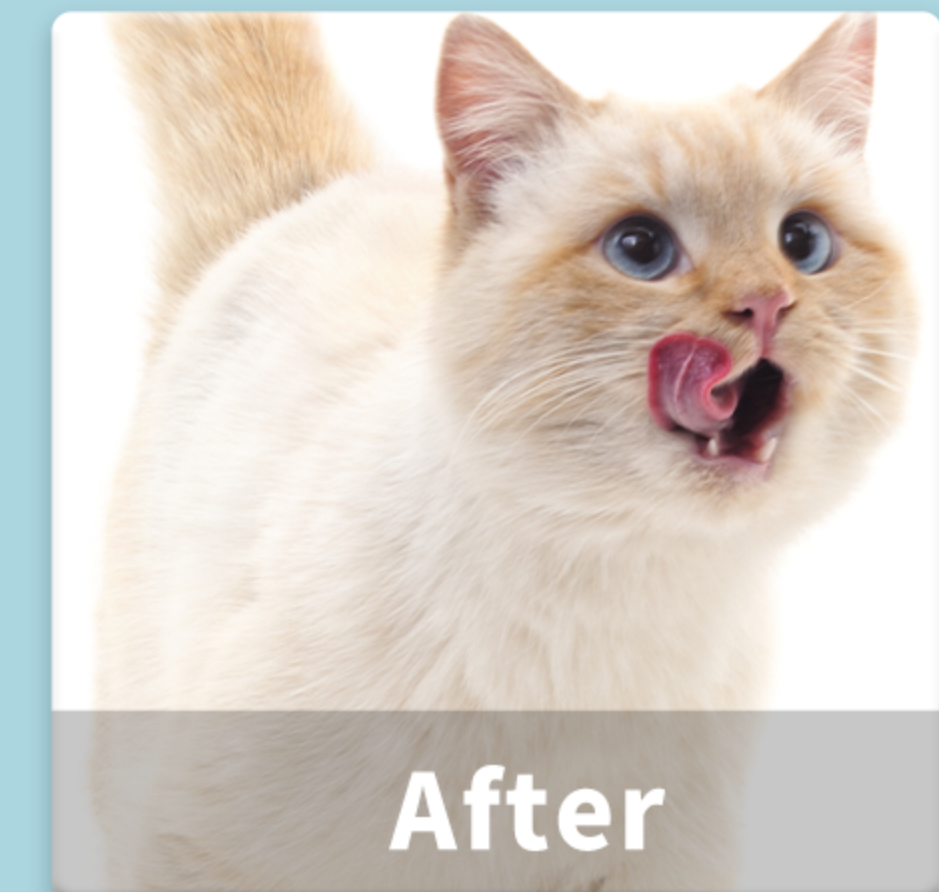

Does your pet's chin look dirty and greasy? Does your pet scratch its chin frequently? The food residue and grease accumulate on your pet's chin, creating a perfect breeding ground for parasites and bacteria. It may result in chin mites and chin acne. Regularly clean your pet's chin, wipe off the debris and grease, which can effectively keep your pet's chin clean and healthy.

Our chin finger wipes are specifically formulated for your furry friend, which contain mild, safe and non-irritating ingredients, suitable for pets of all ages, even sensitive skin.

## Usage Effect

Result may vary depending on individuals and usage habits.

# Nose Cleaning Finger Wipes

In extreme weather dog's nose is always dry, even chapping to peeling. Cold weather causes nose skin to crack, while hot and dry weather leads to dehydration and irritation, both of which contribute to nose chapping. Daily use our wet finger wipes can moisturize and nourish your dog's nose skin, while clean it to prevent infections, reduce bad breath, and keep your dog healthy.

Our nose finger wipes are specifically formulated for your furry friend, which contain mild, safe and non-irritating ingredients, suitable for dogs of all ages, even sensitive skin.

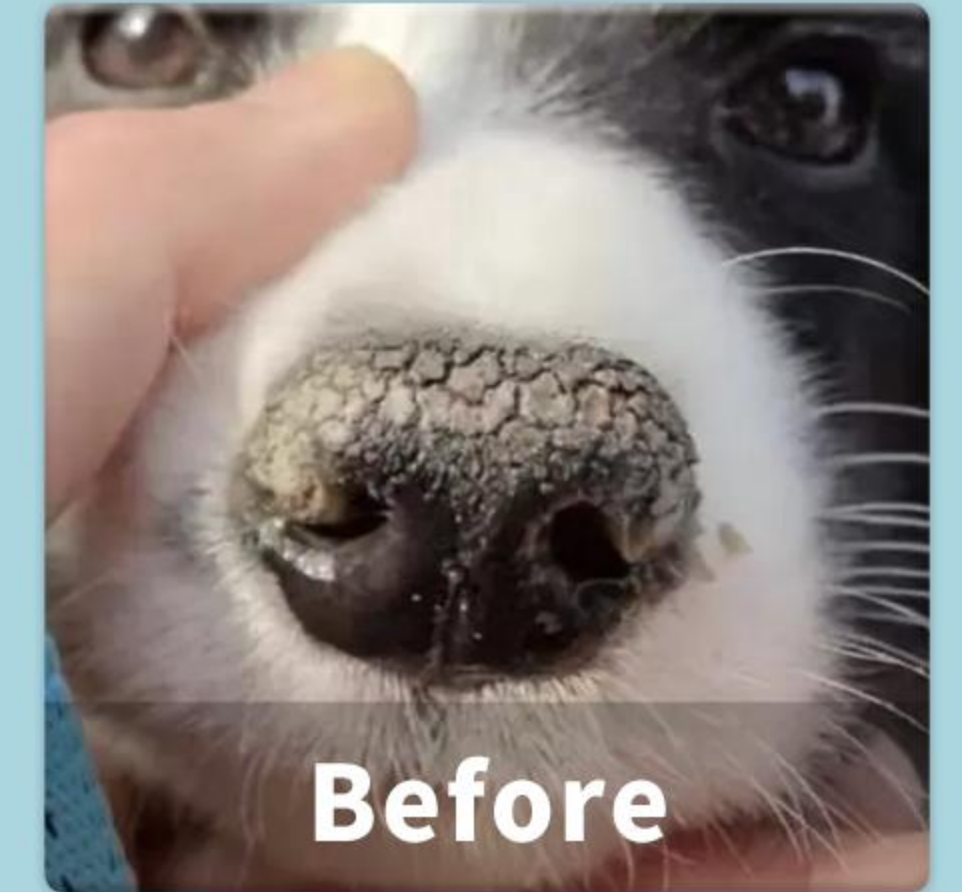

**Dry, chapped**

**Dirt**

**Nasal odor**

**Before**

## Usage Effect

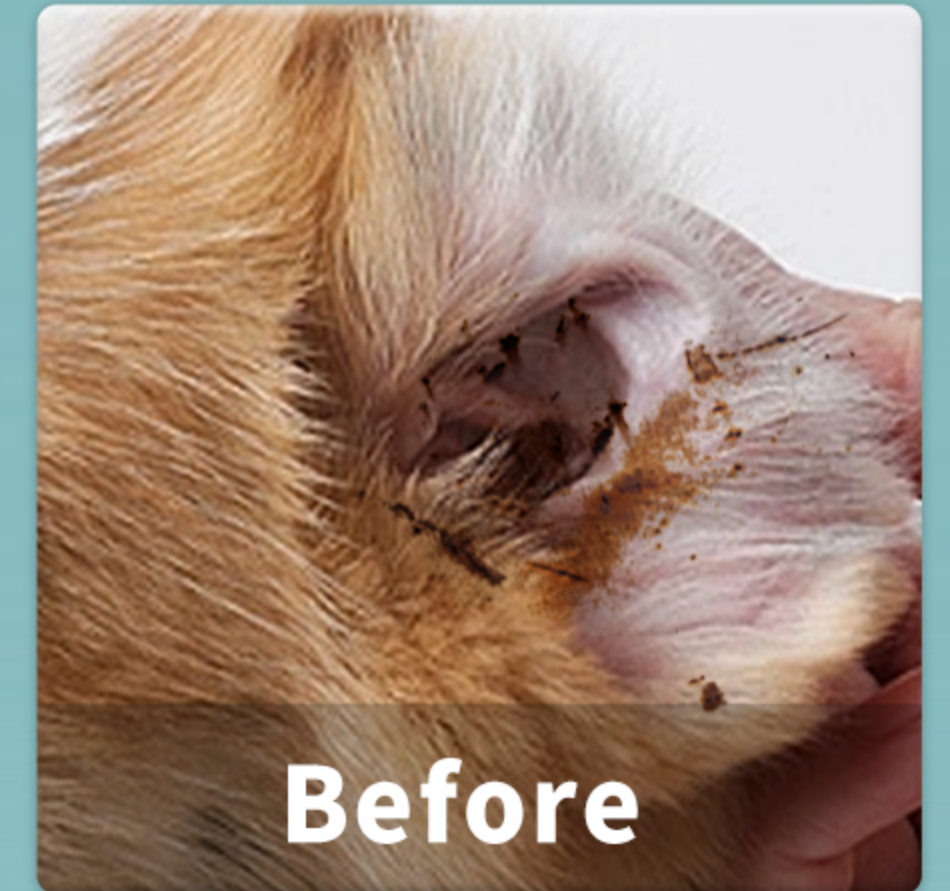

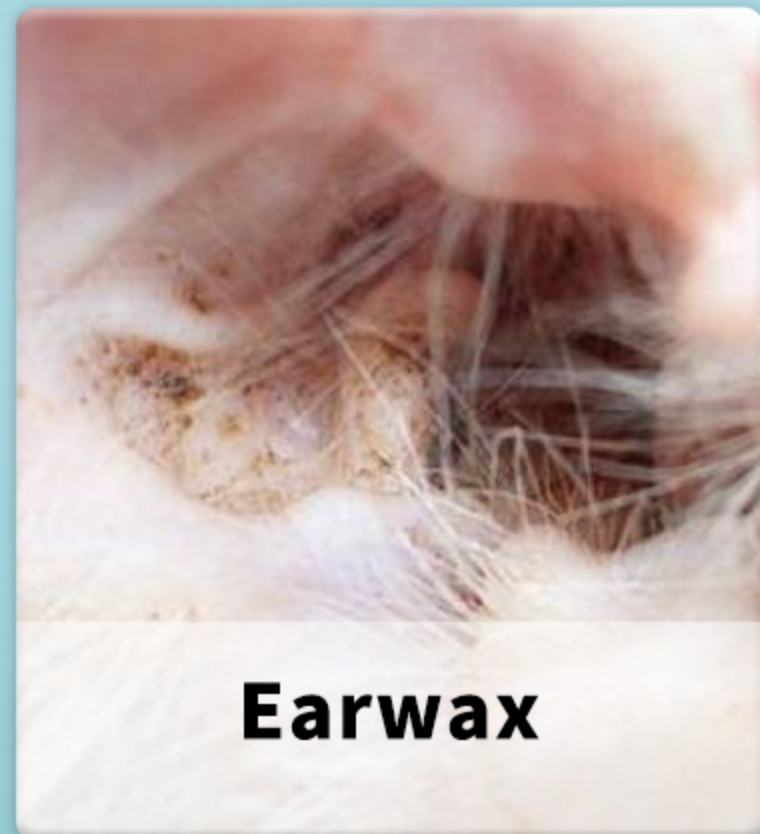

**After**

Result may vary depending on individuals and usage habits.

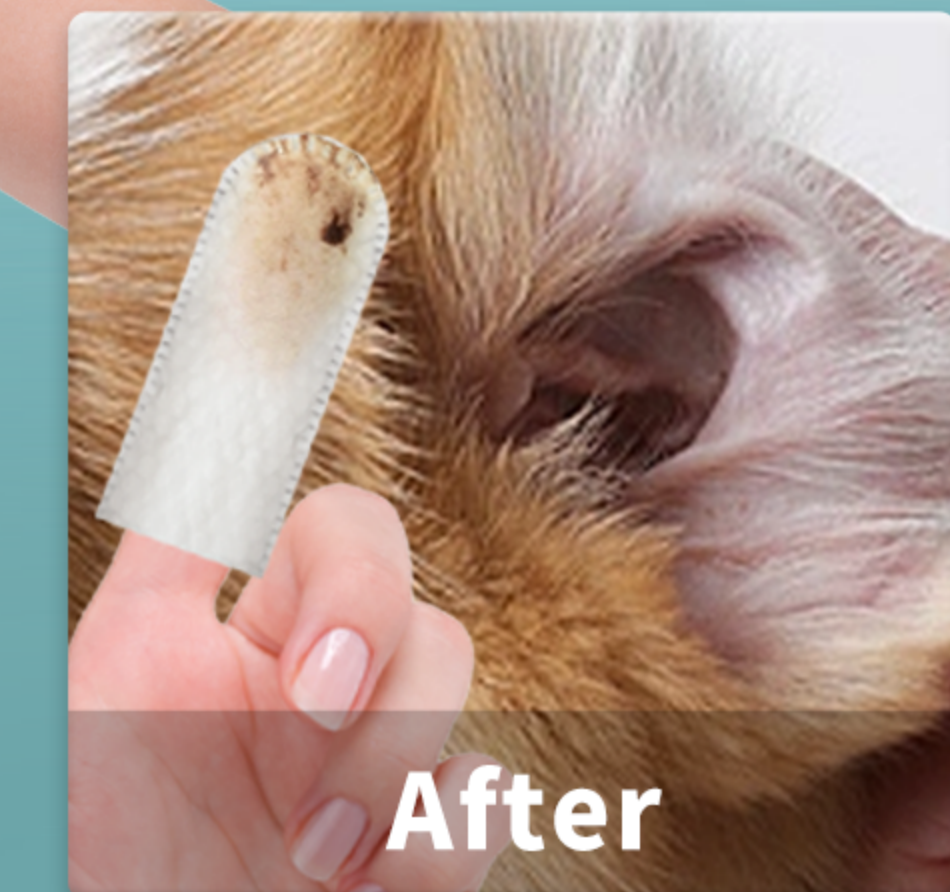

# Ear Finger Wipes

Excessive earwax, debris and parasites on your pet's ears may cause ear infection and inflammation, itching and irritation. Regularly clean the ear, gently lift away the earwax and debris with finger wipe rather than rubbing them into the ear, which can effectively keep your pet's ears fresh, clean and healthy.

Our ear finger wipes are specifically formulated for your furry friend, which contain mild, safe and non-irritating ingredients, suitable for pets of all ages, even sensitive skin.

## Usage Effect

Result may vary depending on individuals and usage habits.

# Ear Drops

Pet's ear canals are curvy and twisty, it is easy for bacteria, parasites and debris to hide in them, which may cause ear infection, itching and irritation. Our ear drops have "L" shaped extended silicone dropper which fits and protects the ear canal better, and allows the solution to penetrate deeper, effectively clean earwax, debris and eliminate odor, keep your pet's ear canals clean and healthy.

Our ear drops are specifically formulated for your furry friend, which contain mild, safe and non-irritating ingredients, suitable for pets of all ages, even sensitive skin.

## Usage Effect

Result may vary depending on individuals and usage habits.

# Dog Shampoo

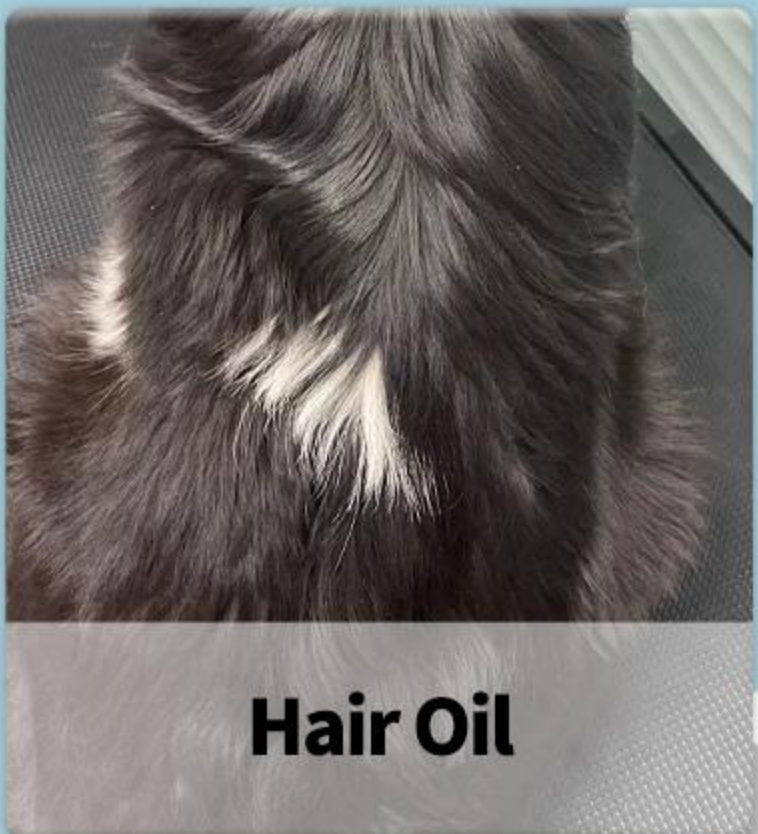

**“Dog smell”**

Your dog’s warm and soft coat provides the perfect breeding ground for parasites and harmful bacteria, which would cause skin irritation and transmit many diseases. Regularly bathing your dog with our shampoo can effectively remove tough odor, dirt and grease, while moisturizing and nourishing the skin, keep your dog fresh, clean, healthy and away from fleas and ticks.

**Dirt**

Our dog shampoo is specifically formulated for your furry friend, which contains mild, safe and non-irritating ingredients, suitable for dogs of all ages, even sensitive skin.

**Hair Oil**

**Before**

## Usage Effect

**After**

Result may vary depending on individuals and usage habits.

# No-Rinse Pet Bed Cleaner

The warm and soft bed is a comfortable space for your pet to relax and rest, meanwhile, your pet would leave stain, saliva, food residue and odor on the bed, which provide the perfect breeding ground for parasites and harmful bacteria, and would cause skin irritation and transmit many diseases. It is tiring and inconvenient to remove the cover and wash it frequently.

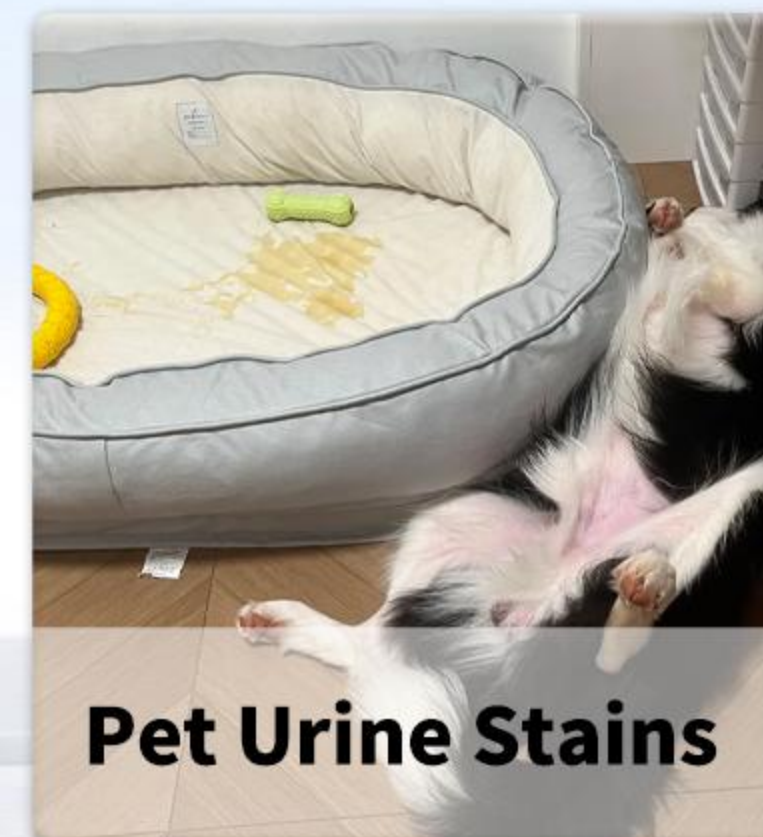

Our no-rinse pet bed cleaner will make your pet's bed daily clean easy. It has rich cleaning foam, and its bristle brush can deeply clean and remove stain, saliva, food residue and odor, keep your pet's environment hygienic and fresh, while protecting your family from cross-contamination.

## Usage Effect

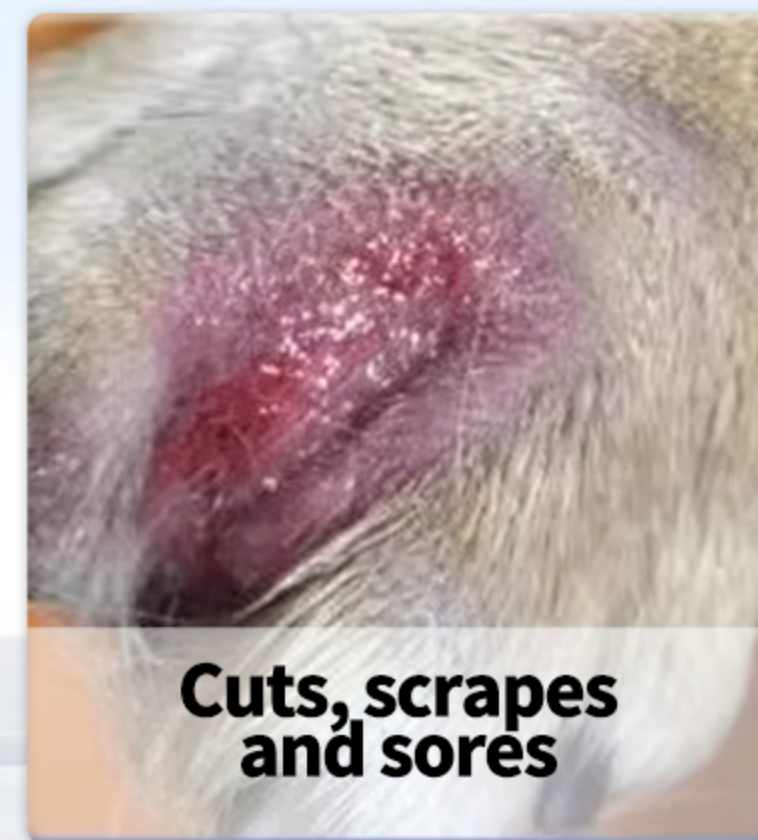

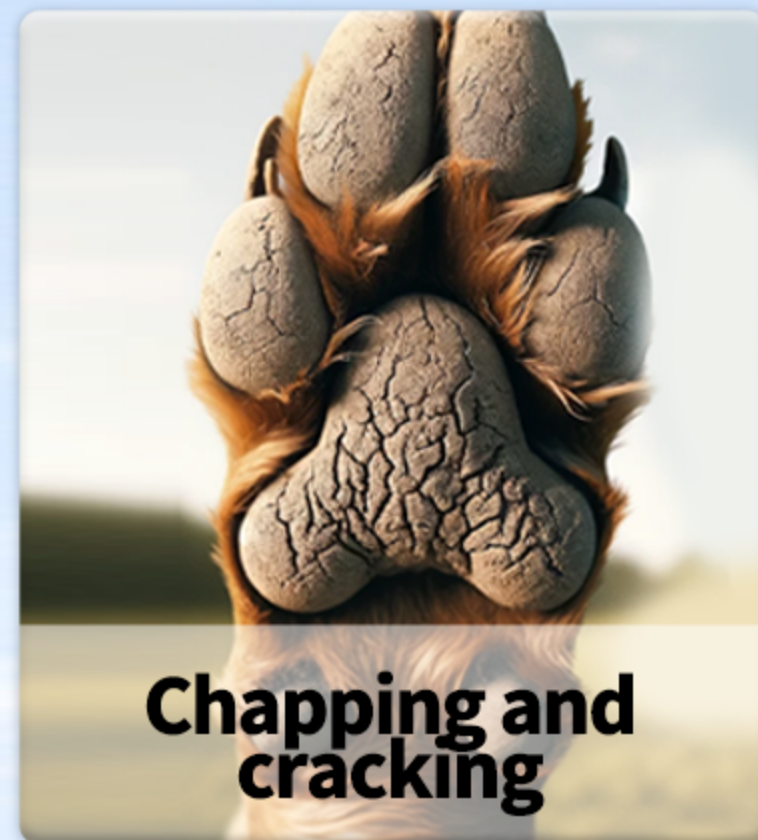

Result may vary depending on individuals and usage habits.

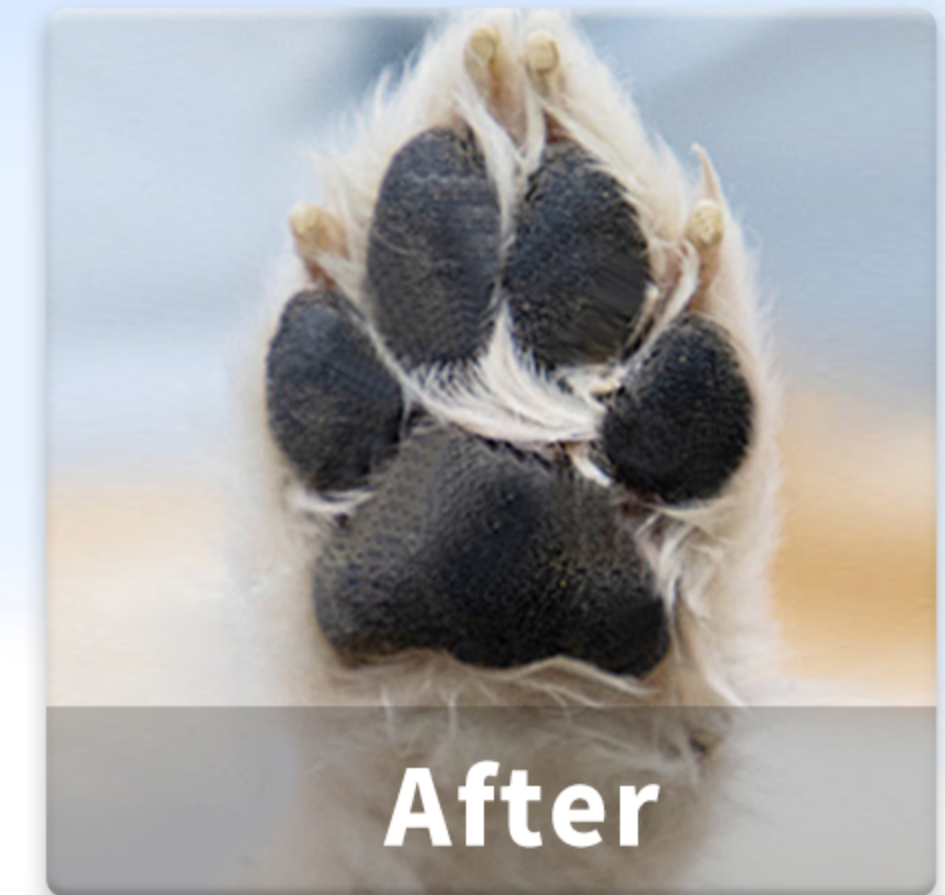

# No-Rinse Foaming Paw Cleanser

Parasites, bacteria, dirt, even toxic chemicals may cause chapping, cracking and sores in your pet's paws. They may also be ingested by your pet when it licks paws, which may cause life-threatening diseases. Our no-rinse foaming paw cleanser has soft silicone brush which can effectively clean the paw pads, keep your pet's paws healthy.

Our no-rinse foaming paw cleanser is specifically formulated for your furry friend, which contains mild, safe and non-irritating ingredients, suitable for pets of all ages, even sensitive skin.

## Usage Effect

Result may vary depending on individuals and usage habits.

# No-Rinse Pet Foaming Shampoo

**Pets special period**

The soft, warm fur of your pet provides the perfect environment for parasites and harmful bacteria, they can cause skin irritation and transmit many diseases. Our no-rinse foaming shampoo can effectively remove tough odor, dirt, debris and oil, while soothing and nourishing the skin, keep your pet fresh, clean, healthy, and away from fleas and ticks.

**Puppy kitten afraid water**

Our no-rinse foaming shampoo is specifically formulated for your furry friend, which contains mild, safe and non-irritating ingredients, suitable for pets of all ages, even sensitive skin.

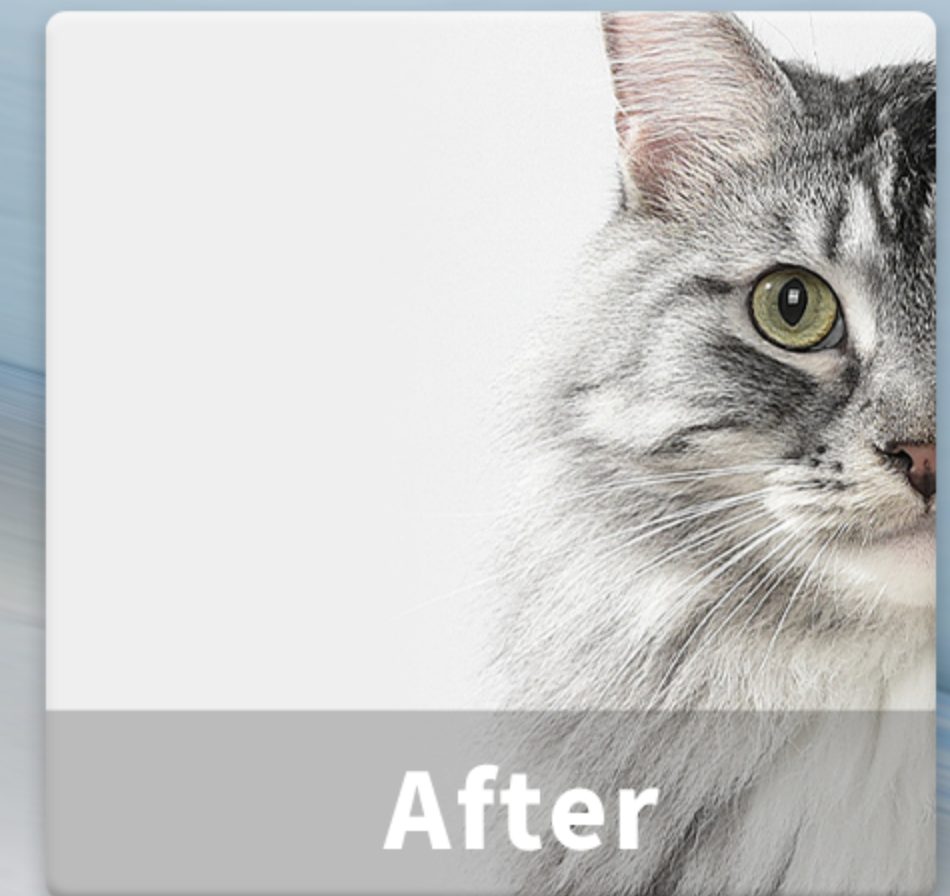

**Outdoor / tourism**

**Before**

## Usage Effect

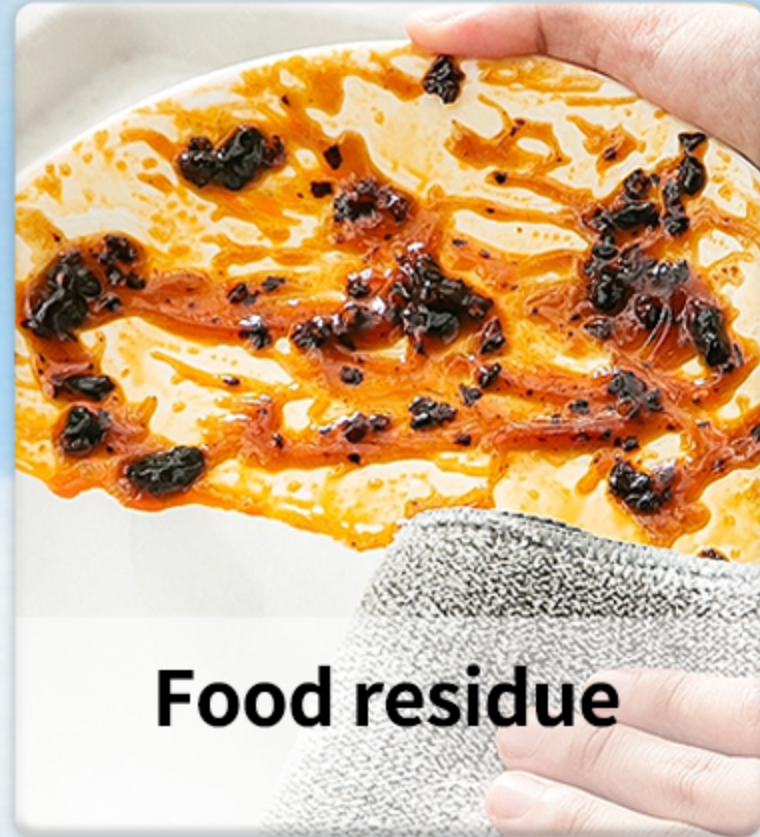

**After**

**Result may vary depending on individuals and usage habits.**

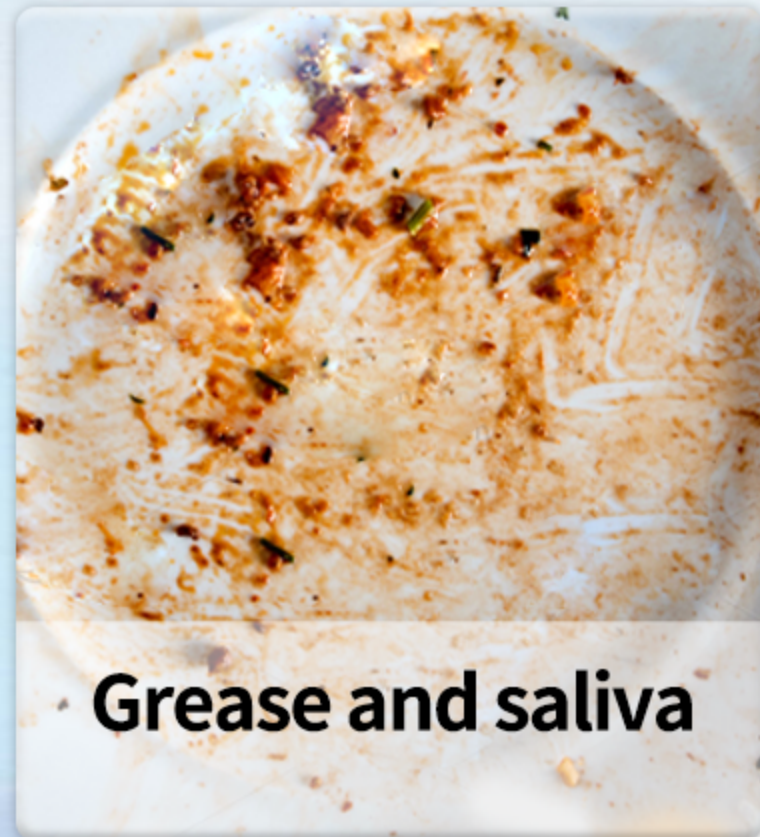

# Pet Bowl Cleaner

Are your pets the messy eaters? They may spill food or slobber in their bowls, creating a perfect breeding ground for parasites and bacteria. Over time, it will result in stinky odors and increase the risk of infection for both you and your furry friends. Daily wash your pet's food and water bowls with our pet bowl cleaner, which can prevent the accumulation of food residue, grease and saliva, keep your pet's environment hygienic and fresh, while protecting your family from cross-contamination.

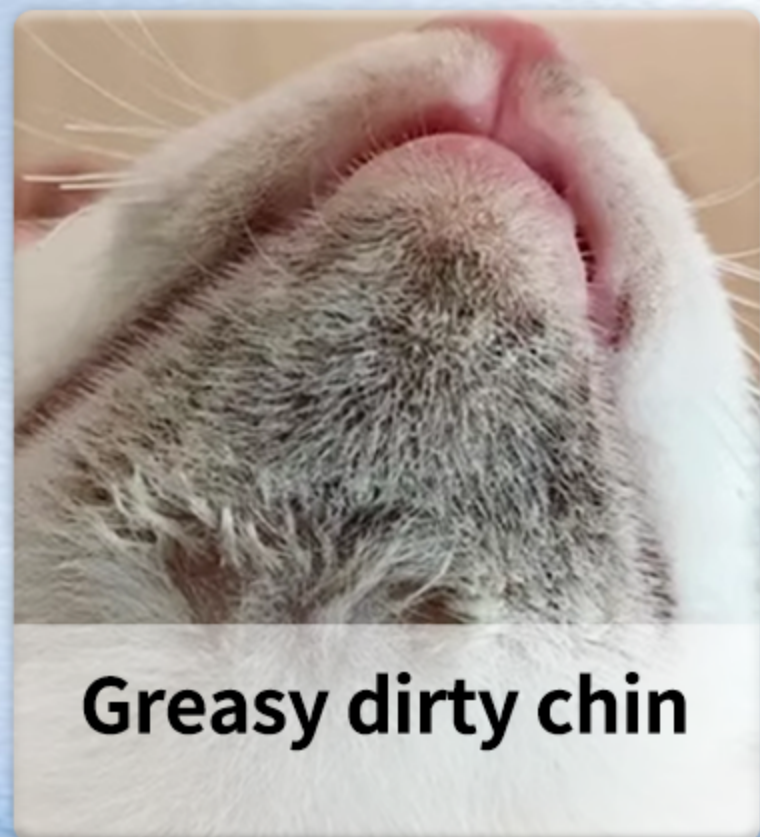

Our pet bowl cleaner is formulated with mild and safe ingredients. It can effectively dissolve grease and saliva but it is gentle and harmless to pets.

**Food residue**

**Grease and saliva**

**Greasy dirty chin**

**Before**

## Usage Effect

**After**

Result may vary depending on individuals and usage habits.

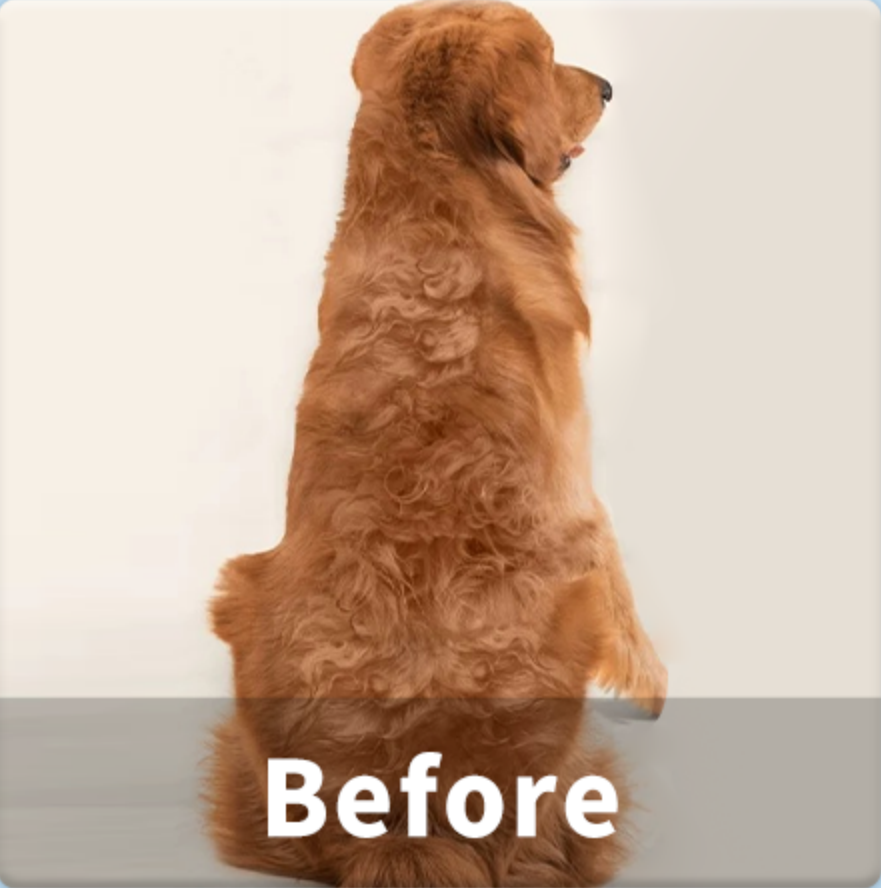

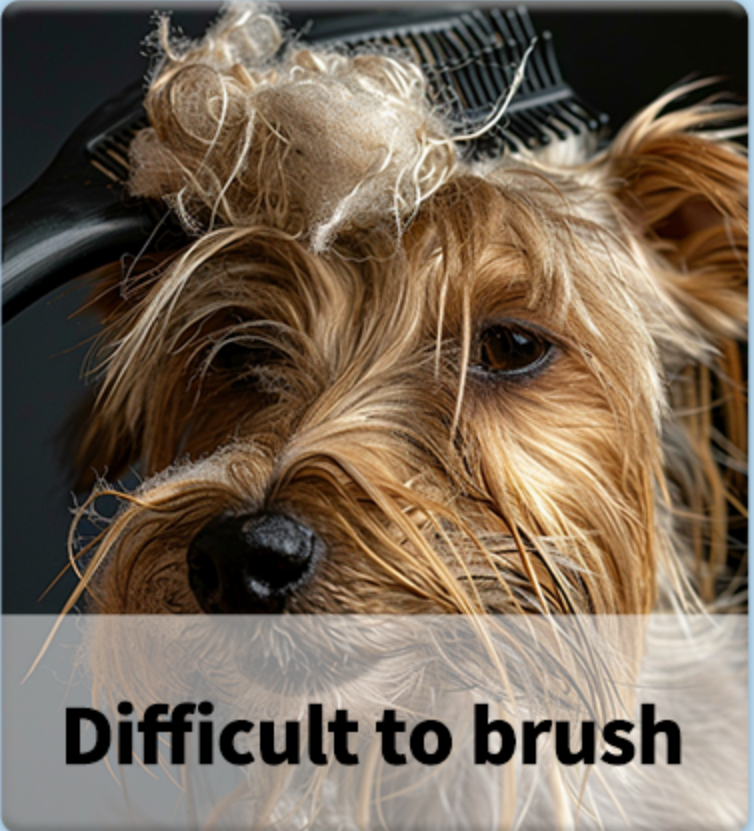

# Pet Detangler Spray

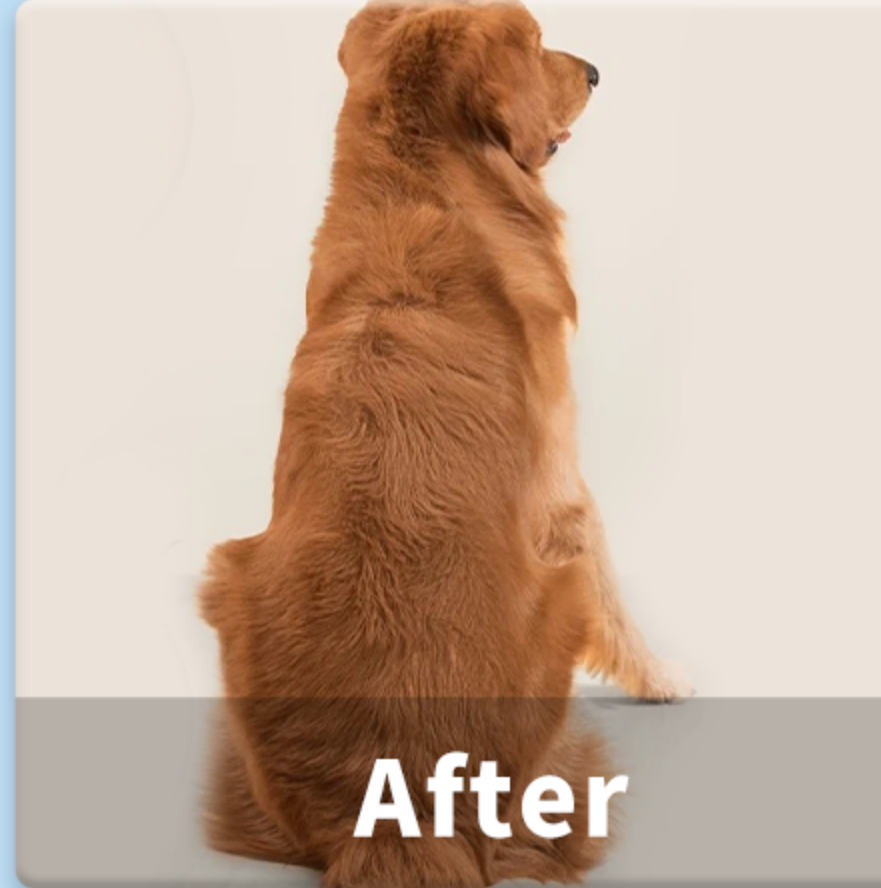

Tangles, knots and mats often accumulate in your pet's coat, they are the perfect breeding ground for parasites and harmful bacteria, which can cause skin irritation and transmit many diseases. Our detangler spray can effectively remove tangles, knots and mats, while balancing PH value and removing static electricity, keep your pet's coat soft, clean, healthy, and away from fleas and ticks.

Our detangler spray is specifically formulated for your furry friend, which contains mild, safe and non-irritating ingredients, suitable for pets of all ages, even sensitive skin.

## Usage Effect

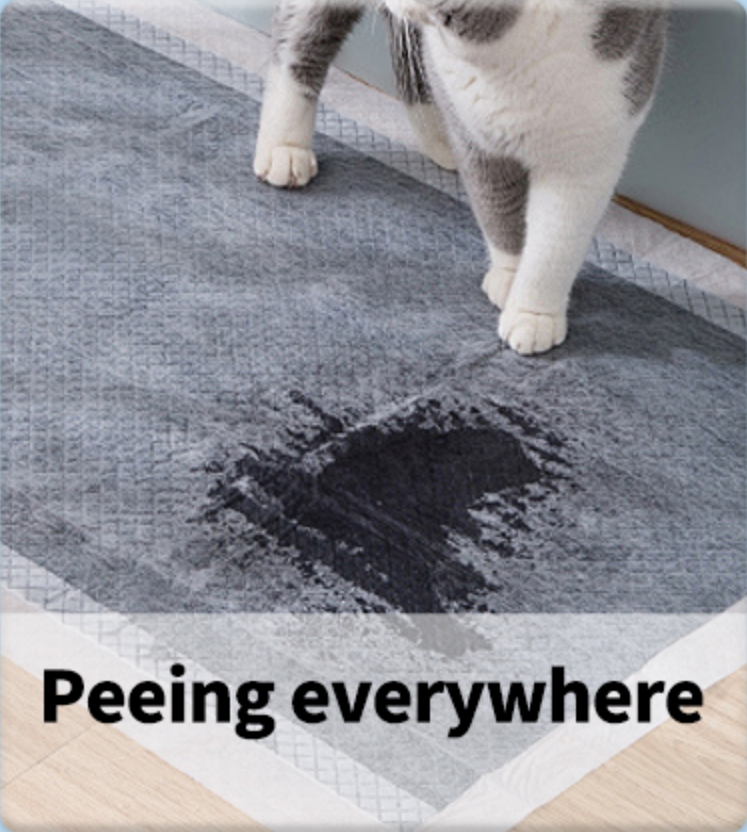

Result may vary depending on individuals and usage habits.

# Pet Deterrent Spray

Does your pet have the bad habit of peeing or pooping anywhere in your house? Have you ever watched your pet scratch furniture, carpets, curtains and plants in your house? It is upsetting that your house always be in a mess with pet urine stains and odor, and it is tiring and expensive to clean and replace items continuously. Our pet deterrent spray can help you to discourage your pet from peeing or pooping on treated areas, and prevent your pet from scratching and clawing.

Our pet deterrent spray is formulated with mild and safe ingredients, using lemongrass essential oil as natural repellent solution, which will not harm the health of your furry friend.

**Peeing everywhere**

**Bite everywhere**

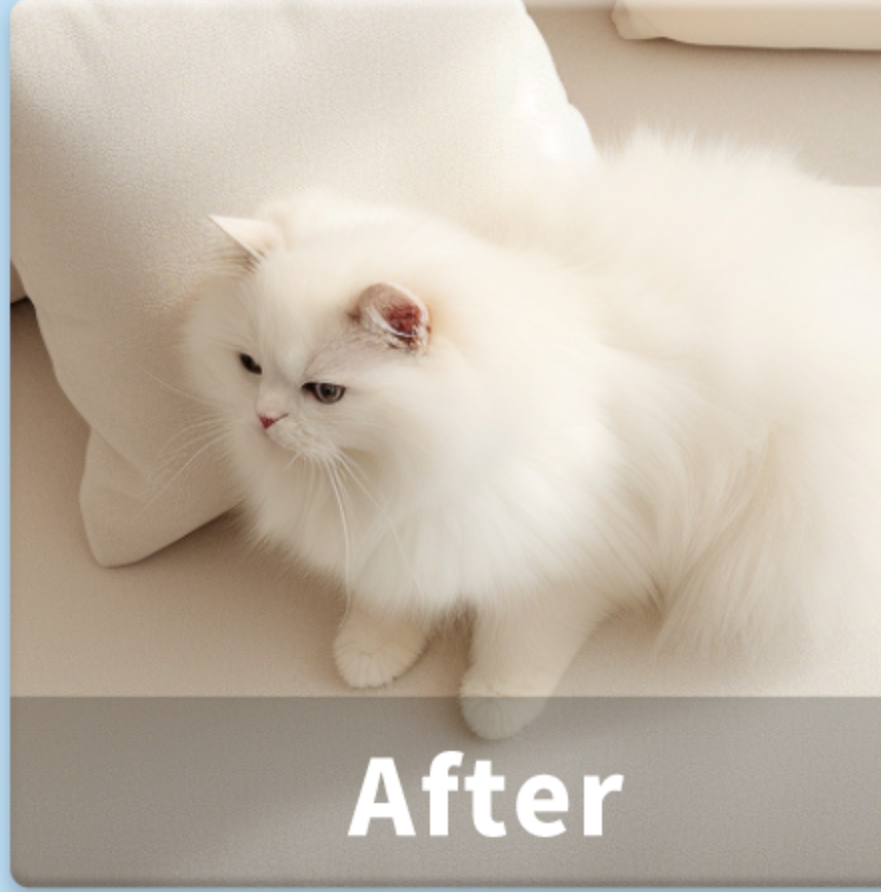

**Scratch everywhere**

**Before**

## Usage Effect

**After**

Result may vary depending on individuals and usage habits.
